ABOUT

Grant Carey is a musician & artist based in Los Angeles. Grant's own work as a songwriter & producer is marked by a hifi-meets-lofi sensibility; his work often exists in the spaces between genres, combining elements of traditional singer-songwriter folk music with experimental, electronic bedroom pop production. His work explores themes of identity, Queerness, family, relationships, time, the environment & more - often through a slightly humorous lens. As a collaborator, Grant has worked with filmmakers, choreographers, musicians, theatre artists & brands to create unique audio experiences that are diverse in style & grounded in storytelling.
